

DELTA DENTAL CLAIM REIMBURSEMENT THROUGH THE SFBF/VEBA FUND

Please note the following for participants covered through Local 8 H&W:

1. If a claim is denied for reaching your dental maximum, we will not receive that information from Delta Dental. You will need to provide your Explanation of Benefits from Delta Dental in order to be reimbursed.
2. If a claim is denied for not being a dental benefit **but** is covered through your medical plan, your provider must submit **the denial from Delta Dental** along with **the dental claim** to your insurance provider (TEWF). Once the claim is processed through TEWF, your patient portion will be available for you to request for reimbursement.
 - a. Examples of Items covered by medical: Extractions, Occlusal Guards.

If the above does not apply and you have seen an Explanation of Benefits (EOB) from Delta Dental for a covered benefit and you have not been reimbursed through your SFBF/VEBA, please submit that EOB for processing of reimbursement. We can always process an eligible procedure processed through Delta Dental from the EOB and manually enter that in for reimbursement through your SFBF/VEBA Fund.

If you have any questions, please let us know.

Thank you,

Toledo Electrical Welfare Fund
